How much do wedding flowers cost?

.... How long is a piece of string? There is no wedding the same as another and so many variables which effect the over all cost, so it is impossible to have a set price for “wedding flowers”.

We have however put together below some pricing brackets to hopefully help answer this question as best we can.

- \$5k - \$8k - Small wedding

- \$8k - \$12k - lavish small wedding or medium sized wedding

- \$12k - \$20k plus - Lavish medium wedding / Large wedding
